TMA4250 Spatial Statistics: Exercise 1

Group 3: Lars Evje, Martin Tufte

1/29/2022

Problem 1: GRFs − model characteristics

a)

Example of code block. Dette er en kommentar.
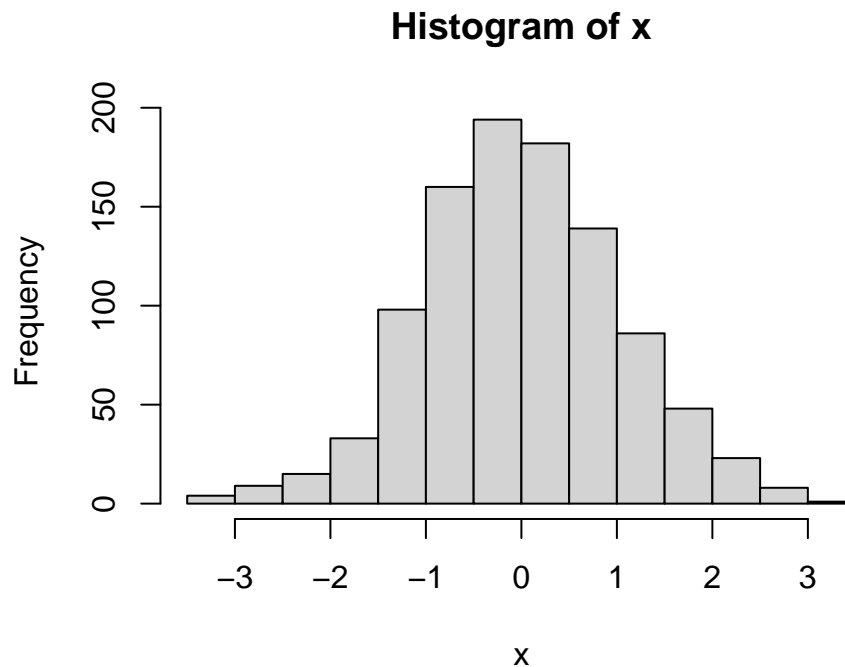

```
x <- rnorm(1000)
hist(x)
```

Figure 1: This is the test caption.

From figure 1, we see that the histogram resembles the standard normal distribution.

Problem 2: GRF - real data

Problem 3: Parameter estimation
